

strawberry dot frog.....

strawberry dot
frog

experience.

poison of a dart frog and can kill you.

Its poison was used on arrows by South American Indians to kill animals. If hit the animal will die instantly. very poisonous.

facts

The

specific.....

length: 1 to 2 inches

species: amphibian

Diet: Insect's

kingdom: animals

Dissection Virtual

it was awesome

the inside looks so cool. It's just so interesting. A frog has a big liver.

Its heart is small too. Plus it looks very real. Try it.

how to make a terrarium

materials: peatmoss, aquarium, gravel, rocks, carbon, 2 ¼ potted plants
terrarium container.

procedure 1. add a layer of rocks across bottom of container.

2. add 1 tsp of carbon.

3. add 4 cups of peatmoss [soaked].

4. take plant's out of pot's and shake off excess dirt, dig small hole, put in
plant, pack down gently.

5. wet every thing so it is moist....not over flowing.

what I thought.....summary

it was cool. we got to make a terrarium and stuff.

we had fun. we all had a good time and learned
new things. I hope I can do it again. you try it.
