

Frog Dissection

By Cesar Olivera

Virtual

• **3-D**

- looks like the real frog for dissecting,
- it was similar to the real deal

Real - amazing, many parts to the frog

How to make a terrarium

MATERIALS:

- Peat moss
- 2 ¼ potted plants
- aquarium gravel
- carbon
- terrarium container

KEY:

- Keep moist

PROCEDURE:

1. add a layer of rocks the bottom of container
2. add 1tsp. of carbon
3. add 4cps. Of peat moss(soaked)
4. take plants out of pots, shake off excess dirt, dig small hole put in, & pack down gently
5. wet everything down so it is very moist
