

## ***How to make a terrarium***

### ***Materials:***

- .peat moss***
- .aquarium gravel***
- .carbon***
- .2 and 1/4 potted plants***
- .terrarium container***

### ***Procedure:***

- .1 add a layer of rocks (regular or aquarium rocks)***
- .2 add 1 tsp of carbon***
- .3 add 7 cups of peat moss***
- .4 take plants out of moss, shake off all dirt, dig small hole, put in plant then barrie it (moss must be damp)***
- .5 wet every thing down (make sure its very moist not wet)***

***Now you know every thing about amphibians and you know how to make them a home now all you need is the animal itself***

***(Make sure you buy an amphibian for this terrarium, lizards and other reptiles are to big for this cage)***
